FOREWORD

In this 1953 Sullivania we, the annual staff have attempted to bring to you, the student body, faculty, and administration, the joys, worries, and hundreds of little happenings that make up a school. We are presenting this to you in drama form. We hope this record will forever remind you of the unwritten memories which your eyes alone can see between the lines.

We shall have succeeded in our purpose if the pages of this book recall the happy days that all of us spent at Sullivan High.

Stay just as you are now.
Love ya!

Time is a sort of river of passing events, and strong is its current. No sooner is a thing brought to sight than it is swept by and another takes its place, and this too will be swept away.

COURT AND ATTENDANTS

Class History

One of the greatest dramatic productions of life is the four year run of a high school education. At the beginning many try-out, but some fall by the wayside as the years come and go.

Now, we have come to the end of our play. As we reach this point, we pause for awhile to look back on a few of the pleasant memories of the past years.

In the fall of 1949, 160 green starlets entered the great halls of Sullivan High School. Stage fright was present in all our minds as we looked toward our distant goal.

We began Act I by electing our class officers as follows. president, Carl Childress, vice-president, Paul Duncan; secretary, Ada Coleman; treasurer, Raymond Conkin.

One hundred and twenty-six came back in the fall of 1949 to try for Act II. Class officers were elected for the year, they were Benny Collings, president; Don Harkleroad, vice-president; Charles Churchwell, treasurer.

One of the outstanding events of this year was our Sophomore party. A very pleasant evening was enjoyed by all of us.

In the fall of 1951 all but three came back to try for Act III. We were eagerly looking toward four big events. But first we elected the following class officers: Zack Wright, president; Mary Ruth Hite, vice-president, Virginia Bachman, secretary; Phyllis Kilday, treasurer.

The first thing of interest was the magazine drive which was very successful.

Then at last the great day arrived. The class rings had finally come, now, we began to feel that we were getting somewhere.

Next in order came the annual Junior play, entitled "Seventeen is Awfully Young." It took many hours of practice for a cast of people to learn to work together. It was this that made the play the success it was.

The last and most thrilling event of our Junior year was the Junior-Senior Banquet. This event we shall never forget.

Act IV has finally come. Ninety-seven of the stars were here for the final act. We elected the following officers to guide us through our Senior year: president, Jackie Hicks; vice-president, Carl Childress; secretary, Ruby Hood, and treasurer, Zack Wright.

Many of our students are now serving our country in the armed forces. . . . We pause to think of them at this time.

We have many things to look forward to, in this our final year. First, the banquet, at which we will be guests instead of hosts. We also look forward to our Senior play, our annual visit to the Capitol, and last — our final goal — graduation.

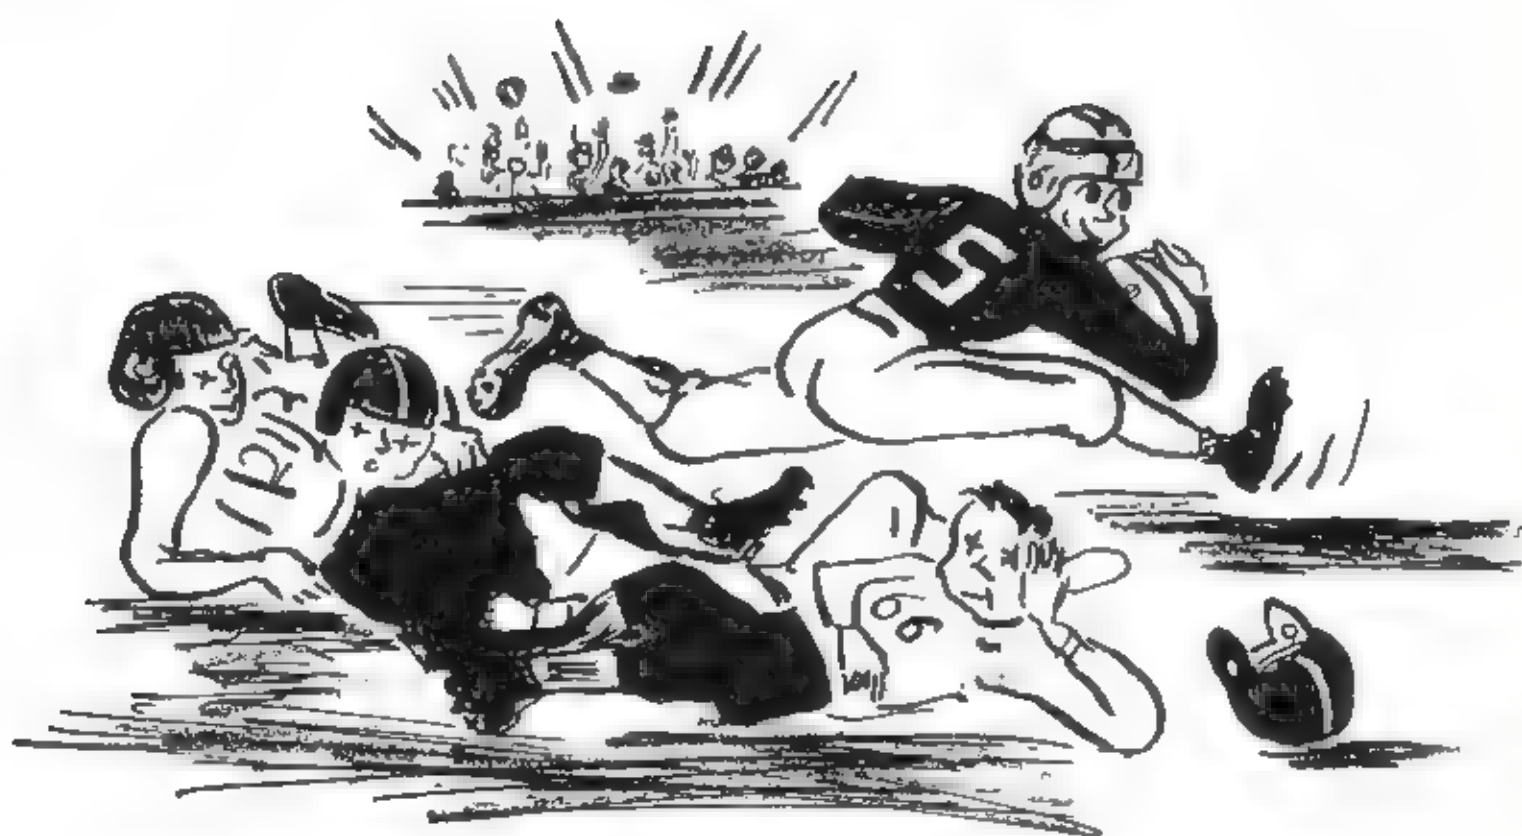

As we near the end of our high school career, we pause briefly to sincerely thank our sponsors, Miss Powell, Miss Deakins, Mrs. Ring and Mr. Reed. It is their leadership and guidance that has made this play a successful one.

There is another in our midst that we must not forget. For his kind understanding for the last three years we say, "Thank You" Mr. Frank J. Alexander, our principal.

At last the end of this play has come. As each one is turning his separate way toward a further goal, we shall always carry with us a pleasant memory of our happiness at Sullivan High.

CHEMISTRY

The fruits of chemical research are varied, but they have inevitably contributed to the welfare of mankind. Typical of the man-made raw materials that help to make this a better place in which to live are those resulting from Eastman chemistry.

TENITE — *a tough, colorful plastic familiar to everyone in the form of toothbrush handles, steering wheels, telephones and many other products in everyday use.*

ESTRON — *the modern cellulose acetate fiber that gives your wardrobe its twentieth-century look, and helps to make your home more attractive when used in curtains and draperies, upholstery fabrics and rugs.*

CHEMICALS — *in an ever increasing number to inhibit gasoline, make insecticides, prevent rancidity in foodstuffs, and do many other equally important jobs.*

Tennessee Eastman Company

—DIVISION OF EASTMAN KODAK COMPANY

AT WORK

Keys molded of Tenite are used on many business machines. Tenite keys are pleasant to touch and permanently chipproof.

Fashion fabrics in colors that keep their fresh beauty are woven with Chromspun, Eastman's new made-in-color acetate fiber.

Tenox, Eastman food-grade antioxidants, is used in a wide variety of food and food products to protect them against spoilage due to rancidity.
